

Let's Talk!

Roundtable Discussion on Best Practices of the ACS Integrated National Curriculum in Surgical Education (INCISE)

Monday, September 28, 2026 | 10:00 – 11:00 am ET

ACS Clinical Congress 2026

Walter E. Washington Convention Center

Room 152B, Street Level

Join us for a special ACS INCISE interactive roundtable discussion featuring curriculum leaders from the ACS/ASE Medical Student Core Curriculum, ACS/ASE Medical Student Simulation-based Skills Curriculum, and clerkship directors who are currently implementing INCISE at their institutions. This engaging session will bring together the experts who helped shape these foundational curricula and educators applying the learning objectives and material in real-world experiences, practical insights, and best practices for integrating the Curricula into a competency-based program for medical students.

Designed as a highly interactive exchange, this interactive session will bring curriculum leaders, clerkship directors, and medical students together to share perspectives on INCISE. Through open discussion, faculty and students will explore implementation experiences, the learner perspective, and opportunities to strengthen competency-based surgical education.

If you have any questions regarding the session please feel free to contact Michelle Armstrong at marmstrong@facs.org or Krashina Hudson at khudson@facs.org.

DON'T FORGET: Add this session to your Clinical Congress Interactive Program Planner.

Come ready to ask questions, share ideas, and join the conversation.

See you in Washington!!
